

PIGMENTO NEÓN COSMÉTICO

MALVA NEÓN

FICHA TÉCNICA

Technical Information

Product description

MALVA NEON pigment is daylight fluorescent pigment for thin-film solvent based applications as gravure, screen process inks....

Composition

A dyed/pigmented melamine, sulphonamide, formaldehyde thermoset copolymer.

Applications:

Inks
Paints
Aerosols
Plastisols
Organosols coatings

Physical properties

- Spec. Gravity: ~1.4 g/ml
- pH: 6 – 7.5
- Average particle size: ~4
- From: Powder

Product specification

- Solvent resistance: < 7
- Hegman Grind: < 10

FEATURES:

- Heavy metals meet EN 71-3 requirements for toys
- RoHs compliant
- REACH and TSCA compliant

Storage

Indefinite when stored in dry conditions below 35°C
Keep dry
Keep away from sources of ignition
Avoid raising dust
